## Socials

- We could book the Edge for a BIG pub lecture.
- Also, the boater (outdoors) could be a good venue for a huge pub lecture.

## Finance

- eXpense 365 app is down
  - Rebecca has tried logging in and logging out but to no avail.
  - This has been an issue since yesterday
  - Might need to email SU finance - tell them it's urgent.
- Once we have the money in our account - we aren't sure what to do
  - We could book a meeting with SU finance - Ruth and Rebecca will attend.
- *Follow-up for updates over the weekend about the status of eXpense 365.*

## SU Website

- Nobody has looked at the questionnaire yet - *but people will check it as soon as they can.*
- *Then, we will post the link into a newsletter.*

- Depending on the level of responses, we can discuss how we can implement people's comments.
- Make sure we tell people that we've seen their responses and we will try to implement.
- Consider repeating pub lectures because of how popular they are.

## Academic Co-ordinator

- We need to be careful about advertising things too quickly before details were confirmed (Pub lectures).
- If we try to set up the next pub lecture NOW, we can keep a string of bookings going.
- *Phil Trinh as a candidate, Chris Budd potentially.*
- *We could even get people to vote for candidates to host a pub lecture by doing a vote on Instagram or WhatsApp.*
- Email Maths DOS to advertise a ChessSoc X BUMS social to all lectures
- *Braley to email Gunnar about the above.*
- *Whilst Braley does these tasks, Matt will start sorting out venue bookings.*

## Social Media

- *We still need to set up the link tree (priority).*
  - SU link
  - WhatsApp group
- We should be taking more photos at the events, and do a photos roundup on the Instagram.
- We should do a social that isn't a pub lecture soon, so that we can appeal to more members.
- Pub quiz could be a natural next step for a non-pub-lecture socials.
- *Matt to email Waleed about hosting a pub quiz.*
- We could do an SU takeover at some point on the Instagram.

## **Socials Roundup**

- Date for future pub lectures (26th~28th March)

## **STEM Ball**

- Too late now and probably not realistic.
- We should emphasise to the next committee how important it is that they plan this very early (October ish) if they wanna do it in the Spring.

## **AOB**

- Braley is running for Chair next year. Let's support her!
